

## **Software Engineering Course – Mid Semester Presentation**

Although we already presented our app to Eitan on 06/12/2021 at 16:30, and we all got a 100 grade. As requested, this file represents all the screens we finished on our app, that is needed for this task. In addition, on the bottom page is more information regarding additional screens that we are currently working on to add to this app.

Project/App Name: StudentHub

Programmers: 1.) Alon Firestein – 314984402

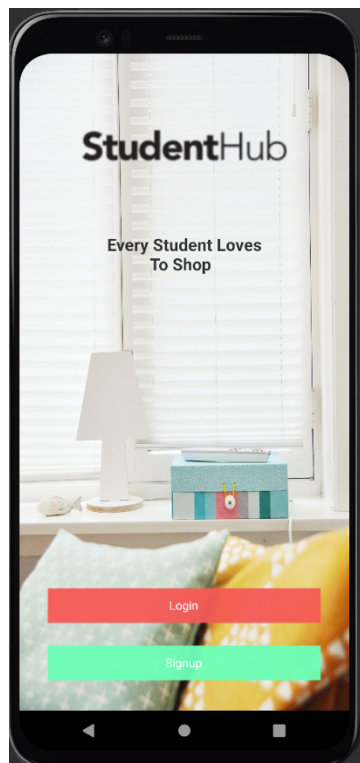

2.) Eyal Levi - 203249073

3.) Yosef Danan – 211838420

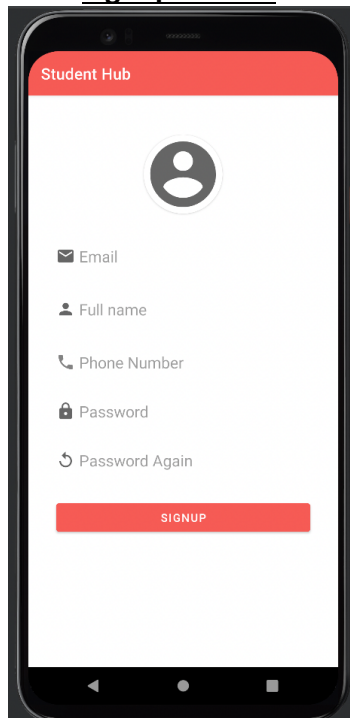

Github Repository Link: <https://github.com/YD5463/StudentHub>

### **Finished Screens of Our App:**

#### **Main screen:**

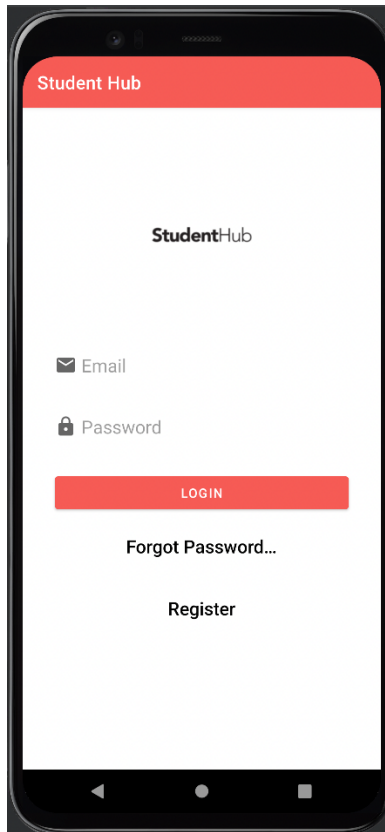

### Signup screen:

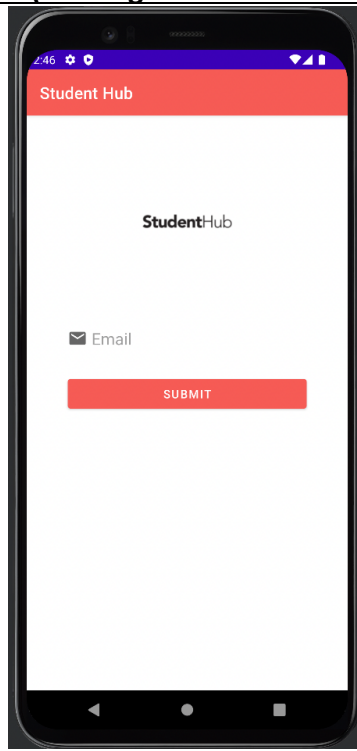

The Signup screen for Student Hub features a red header bar with the text "Student Hub". Below the header is a circular profile icon placeholder. The form includes five input fields, each with an icon: an envelope for "Email", a person for "Full name", a telephone for "Phone Number", a lock for "Password", and a circular arrow for "Password Again". At the bottom of the form is a red button labeled "SIGNUP". The screen is displayed on a smartphone with a black bezel and a white status bar at the top.

### Login screen:

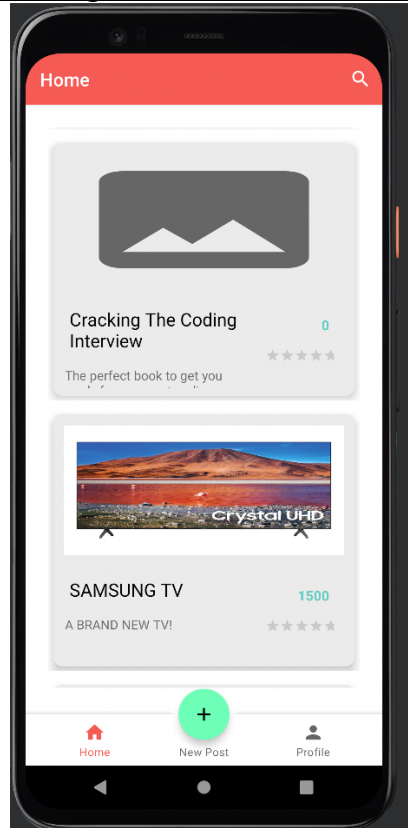

The Login screen for Student Hub features a red header bar with the text "Student Hub". Below the header is the "StudentHub" logo. The form includes two input fields, each with an icon: an envelope for "Email" and a lock for "Password". At the bottom of the form is a red button labeled "LOGIN". Below the login button are two links: "Forgot Password..." and "Register". The screen is displayed on a smartphone with a black bezel and a white status bar at the top.

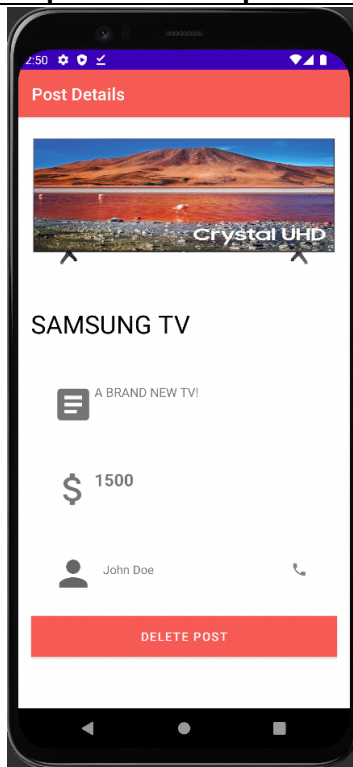

**Forgot password screen (sending email verification and password reset):**

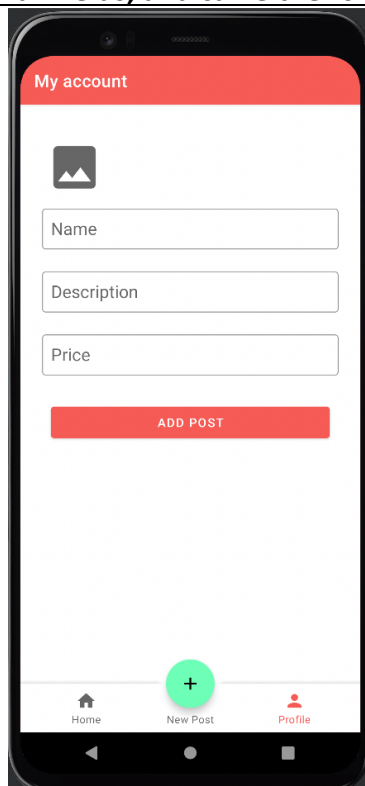

**Home screen (showing details of most recent uploaded posts):**

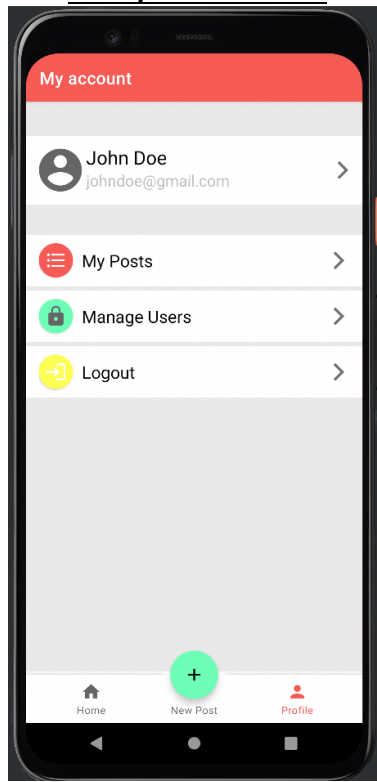

**Post details screen (clicking on a post shows more details of the post, including the option to call the seller, and only the uploader of the post see the “delete post” button):**

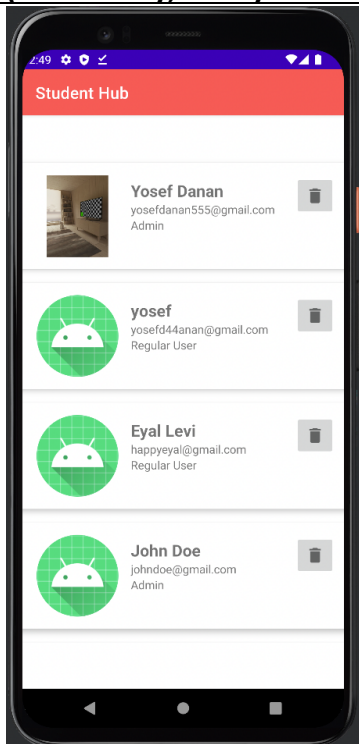

**Add post screen (user must fill all fields, and can either choose a photo/file or take one):**

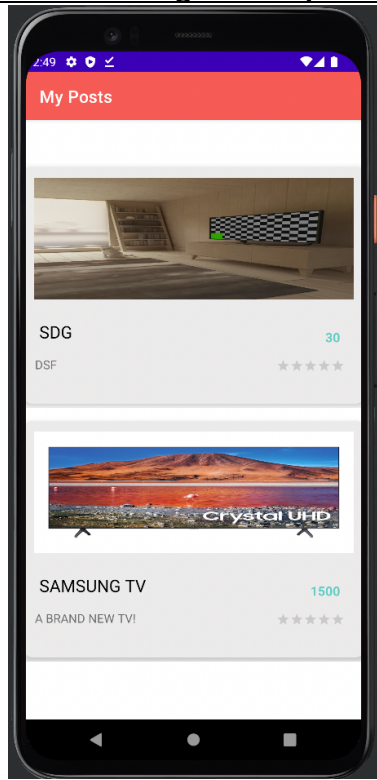

### User profile screen:

### Manage users screen (Admin only, ability to delete users for example):

**My posts screen (lets the user see and manage all the posts that only he/she has uploaded):**

Additional screens that we are currently working on that is not yet finished is:

- A possible chat option for a browsing user to send to the seller of a certain post that he/she is interested in.
- The option to browse posts according to certain tags/categories.
